

004

Over countertop or semi-recessed washbasin / Lavabo da appoggio o semincasso

What happens when a project is reinterpreted using different materials? How does the shape and character of the object transform? This is the central theme of Agape's ongoing research, and the 004 washbasin is the perfect example. Available as a countertop or semi-recessed basin in sizes of 60, 80, 100, and 120 cm, 004 reinterprets the essential design of the crystal version, now offered in marble and solid surface. Made from 15 mm slabs and featuring an elegant sloped shelf that conceals the drain, the 004 washbasin impresses with its distinctive physicality and visual impact. On request, and subject to technical evaluation, the basin can be customized with exclusive stones or marbles, with costs to be determined.

Che cosa accade quando un progetto viene reinterpretato con materiali diversi? Come si trasformano la forma e il carattere dell'oggetto? Questo è il tema centrale della ricerca portata avanti da Agape, e il lavabo 004 ne è un perfetto esempio. Disponibile come lavabo da appoggio o semincasso, nelle misure di 60, 80, 100 e 120 cm, 004 reinterpreta il design essenziale della versione in cristallo, declinandolo in marmo e solid surface. Realizzato con lastre da 15 mm e dotato di un ripiano inclinato che nasconde elegantemente lo scarico, il lavabo 004 colpisce per il suo impatto visivo e per una fisicità distintiva. Su richiesta, e previa valutazione tecnica, il lavabo può essere personalizzato con pietre o marmi esclusivi, con costi da valutare.

Ventiquaranta

Wall mounted washbasin / Lavabo a parete

Compact and modular, Ventiquaranta offers maximum versatility with two configurations. In the wall-mounted version on the short side, the basin is paired with a storage unit featuring a drawer and shelves. In the version mounted on the long side, it is complemented by a unit with a hinged or drop-down door and a fabric laundry basket. Made of cement and available in various finishes, Ventiquaranta integrates perfectly with units in natural, brown, or dark oak. The faucet can be mounted on the basin or on the wall, adding a further touch of customization.

Compatto e modulare, Ventiquaranta offre la massima versatilità grazie alle sue due configurazioni. Nella versione montata a parete sul lato corto, il lavabo si abbinava a un contenitore con cassetto e ripiani, mentre nella versione sul lato lungo, è completato da un contenitore con ante a battente o ribalta e cestino in tessuto per la biancheria. Realizzato in cemento e disponibile in diverse finiture, Ventiquaranta si integra perfettamente con contenitori in rovere naturale, bruno o scuro. La rubinetteria, posizionabile sul lavabo o a parete, aggiunge un ulteriore tocco di personalizzazione.

Craft

Systems / Sistema

The Craft container system, designed by Benedini Associati, represents the perfect synthesis of design expertise and high-level craftsmanship. This versatile system of floor-standing furniture can be configured as a freestanding element, wall-mounted, or integrated into a niche. Thanks to its versatility, Craft is not just a piece of furniture, but a true architectural element capable of defining spaces with style and functionality.

Il sistema contenitori Craft, disegnato da Benedini Associati, rappresenta una perfetta sintesi tra know-how progettuale e artigianalità di alto livello. Questo versatile sistema di mobili da terra può essere configurato come elemento freestanding, a parete o integrato in una nicchia. Grazie alla sua versatilità, Craft non è solo un complemento d'arredo, ma un vero elemento architettonico, capace di definire gli spazi con stile e funzionalità.

Cenote

Bathtub / Vasca

The Cenote bathtub, designed by Patricia Urquiola for Agape in 2024, represents a design and manufacturing challenge, a tangible example of collaboration between designer, company, and artisans. Inspired by the ancient pre-Columbian cave, a symbol of mysticism and a source of fresh water, Cenote expands the namesake washbasin collection, becoming a magnetic and sculptural presence in the bathroom. Handcrafted, each bathtub is a unique piece, the result of an artisanal process that takes over six weeks to complete and, like the object itself, transcends trends and time. Cenote is a work that embodies the value of slowness and attention to detail, making it a symbol of durability and authenticity.

La vasca Cenote, disegnata da Patricia Urquiola per Agape nel 2024, rappresenta una sfida progettuale e manifatturiera, un esempio tangibile di collaborazione tra designer, azienda e artigiani. Ispirata all'antica grotta precolombiana, simbolo di misticismo e fonte di acqua dolce, Cenote amplia la collezione omonima di lavabi, diventando una presenza magnetica e scultorea nella stanza da bagno. Realizzata a mano, ogni vasca è un pezzo unico, frutto di un processo artigianale che richiede oltre sei settimane di lavoro e che, come l'oggetto stesso, trascende le mode e il tempo. Cenote rappresenta un'opera che esprime il valore della lentezza e dell'attenzione ai dettagli, rendendola un simbolo di durabilità e autenticità.

Lift + Nudo XL

Modular boilerie / Boilerie attrezzata

Lift and Nudo XL are versatile modular systems that, when combined, offer a flexible solution for configuring functional and personalized spaces, both in the bathroom and other environments.

The Lift program features modular wall-mounted units with depths of 18 cm and 30 cm, available in various widths and heights (from 60 to 120 cm). The hinged door units, offered in coordinated finishes or fine materials such as marble, leather, and brass, can be combined with open elements for even more flexible configurations. Lift also includes modules designed to house sanitary fixtures and related systems, ensuring a complete technical solution.

Nudo XL reinterprets the concept of boilerie, transforming the wall into an equipped and customizable system. With modules ranging from 40 to 120 cm in height and up to 240 cm in width, it allows for custom compositions enriched with mirrors, accessories, and panels in wood and stone, creating walls with character and depth.

Lift e Nudo XL sono sistemi modulari versatili che, combinati tra loro, offrono una soluzione flessibile per configurare spazi funzionali e personalizzati, sia per il bagno che per altri ambienti.

Il programma Lift propone contenitori pensili modulari da 18 cm e 30 cm di profondità, con diverse larghezze e altezze (da 60 a 120 cm). Le ante, disponibili in finiture coordinate o materiali pregiati come marmo, cuoio e ottone, si abbinano a nuovi elementi a giorno per una configurazione ancora più versatile. Lift include anche moduli per ospitare sanitari e impianti, garantendo una soluzione tecnica completa.

Nudo XL reinterpreta il concetto di boilerie, trasformando la parete in un sistema attrezzato e personalizzabile. Con moduli da 40 a 120 cm in altezza e fino a 240 cm in larghezza, permette composizioni su misura arricchite da specchi, accessori e pannelli in legno e pietra, creando pareti di carattere e profondità.

Undici Inox

Column washbasin / Lavabo a colonna

An icon of archetypal simplicity, the column version of Undici Inox combines essential geometric lines with finely crafted details, offering the perfect balance between style and versatility. Available in a wide range of finishes, Undici Inox allows for customization of the painted support and basin, always with a natural brushed brass or stainless steel interior and a matching drain. On request, the painted elements can be ordered in RAL colors. A coordinated floor-standing accessory completes the collection.

Un'icona di semplicità archetipica, l'Undici Inox nella sua versione a colonna combina linee geometriche essenziali e dettagli finemente lavorati, offrendo un equilibrio perfetto tra stile e versatilità. Disponibile in una vasta gamma di finiture, Undici Inox permette di personalizzare il supporto verniciato e il catino, sempre con interno in ottone naturale spazzolato o acciaio inossidabile con piastra coordinata. Su richiesta, è possibile ordinare gli elementi verniciati in colori RAL. A completamento, un porta oggetti da pavimento coordinato nelle finiture.

Cenote

Column washbasin / Lavabo a colonna

The Cenote collection explores the expressive possibilities of clay, now with a new freestanding model. Handcrafted on a potter's wheel, both the basin and the support column are made from natural or dark refractory clay. The deliberately rough exterior contrasts with the glazed, glossy interior. Cenote is available in two sizes and two exterior finishes: natural or dark clay, with the interior glazed in transparent, cream, or blue. Available with a floor (F) or wall (M) drain, this basin masterfully combines artisanal tradition and practicality, becoming a distinctive element in any environment.

La collezione Cenote esplora le possibilità espressive dell'argilla, ora con un nuovo modello freestanding. Modellato a mano al tornio, sia il lavabo che la colonna di supporto sono realizzati in argilla refrattaria naturale o scura. La superficie esterna, volutamente grezza, contrasta con l'interno smaltato e lucido. Cenote è disponibile in due dimensioni e due finiture esterne: terra naturale o scura, con l'interno smaltato trasparente, crema o blu. Disponibile con scarico a pavimento (F) o a muro (M), questo lavabo combina sapientemente tradizione artigianale e praticità, diventando un elemento distintivo in qualsiasi ambiente.

125L
Wall mounted lamp / Lampada a parete

125L represents the evolution of a classic from the Agape catalog, now reinterpreted with new technology and an updated color palette. This wall-mounted ceramic lamp, available in glossy or matte finishes in shades of white, light gray, medium gray, dark gray, pine green, and black, emits a warm LED light (2700 K) through a refined opaline glass spherical diffuser integrated with the bulb. Versatile and discreet, 125L finds its place not only in the bathroom but in any room of the house, ensuring soft and even illumination.

Memory Classic
Taps / Rubinetti

Mirror cabinets / Specchi contenitori

Voilà
Mirror cabinet / Specchio contenitore

Voilà reimagines the space around the bathtub and basin, enhancing their sculptural presence without sacrificing functionality. This innovative storage unit disappears thanks to its pivoting or sliding doors, revealing an interior equipped with shelves, towel rails, and electrical outlets when needed. More than just an accessory, Voilà becomes an architectural feature, creating movement and depth with a series of columns that transform the wall into a functional composition. It is also available in a 110V version for the US market.

Taps / Rubinetti

Memory Classic
Taps / Rubinetti

Memory Classic reinterprets the archetype of classic taps with a modern approach, blending tradition and innovation in line with Agape's stylistic standards. Expanding the *Memory* collection, which since 2009 has explored the aesthetic and cultural roots of the modern bathroom, *Memory Classic* stands out for its soft, welcoming shapes. With pronounced thicknesses and rounded edges, it adds a touch of warmth to the timeless rigor of the collection.

Washbasins / Lavabi

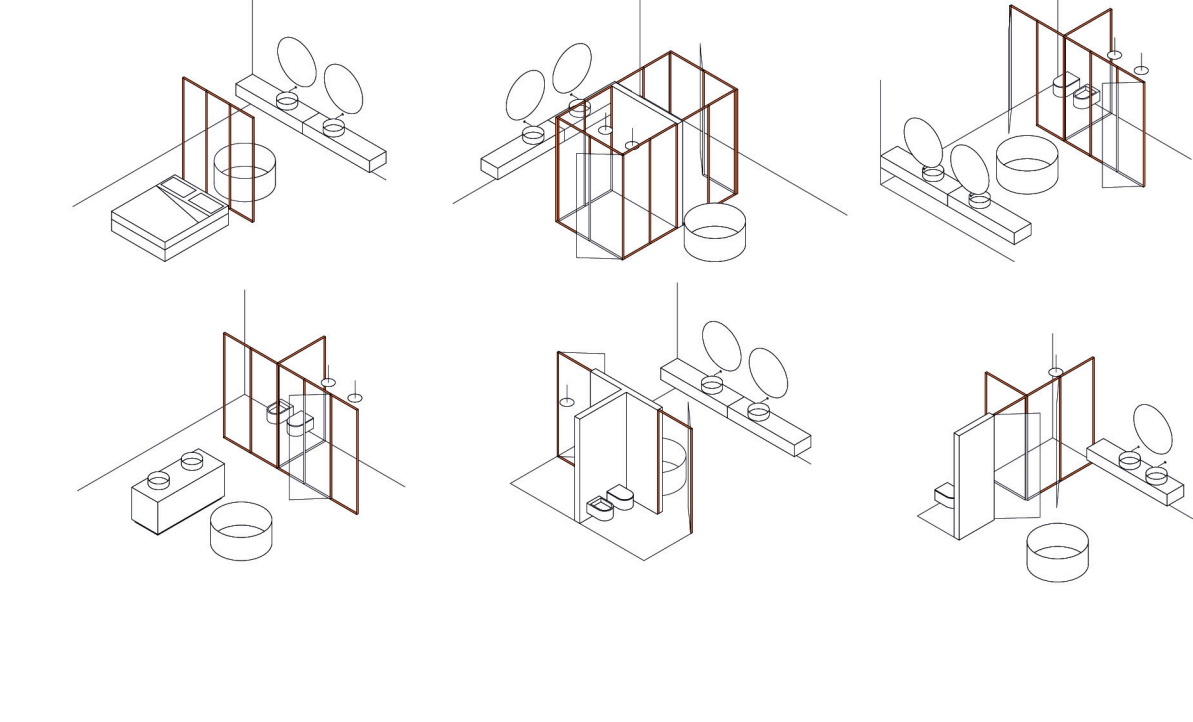

Rigo + Ell Grid
Systems and countertop washbasin / Sistema e lavabo da appoggio

Rigo is a refined contemporary reinterpretation of the traditional bathroom, born from the deconstruction of the conventional bathroom cabinet into functional elements. The linear beams offer versatile space, suitable for a countertop to hold basins and accessories, and are ideal for managing the irregularities on the wall, from which they lightly detach. The system is available in a premium anodized natural aluminum finish, with modular lengths from 120 to 300 cm. *Rigo* is also compatible with an expanded range of basins, including *Ell Grid* and *Cenote*, as well as *Larane* models in oval, round, and rectangular shapes. The system's elements provide a solution that harmoniously responds to the functional and formal needs of any space.

DIV
Partitioning system / Sistema di partizioni

DIV is a modular system that allows for the subdivision and organization of spaces with versatility and attention to detail. The glass walls, available in heights of up to 3 meters, create a light yet functional separation, making it suitable for both bathrooms and other areas of the home. The system includes configurations with pivoting doors, offering practical and sophisticated solutions for any requirement. *DIV* offers a wide range of customized finishes for glass, structure, and handles, allowing it to integrate seamlessly into the surrounding environment. Its flexibility and clean lines make it an ideal choice for those seeking a division of spaces that combines functionality and refined detailing.

Bloque
Systems / Sistema

Mirror cabinets / Specchi contenitori

028
Mirror cabinet / Specchio contenitore

028 is the natural evolution of the 027 mirrored cabinet, maintaining its formal purity while retaining the internal partitions in brushed stainless steel, which define its style. This new version introduces an important innovation: mirrored sliding doors that completely close the cabinet, concealing personal items and accessories while giving the surface a uniform, tidy appearance. Available in lengths from 120 to 240 cm and with a height of 60 cm, 028 combines functionality with precise, contemporary aesthetics.

Bathtubs / Vasche

Cenote Lava
Bathtub / Vasca

Crafted from volcanic rock and skillfully shaped, *Cenote Lava* stands out for its rectangular structure, elegantly rounded at the ends. The generous rim conveys solidity, while the bush-hammered exterior surface creates a visual contrast with the egg-smooth interior. Treated with a special water- and oil-repellent solution to simplify maintenance, *Cenote Lava* enhances the essential forms and the intense color of magma, offering an experience that evokes the power of nature.

Extras / Complementi

Ted
Side tables / Servomuto

The collection expands with the *Ted* series by Daniele Dalla Pellegrina, introducing a new practical accessory to better organize the bathroom and other spaces in the home. Discreet and functional, *Ted* can be paired with basins, bathtubs, sanitary fixtures, or furniture, fitting perfectly even in living or bedroom areas. With a black solid surface base, marble tray, and brushed black anodized aluminum support, *Ted* combines premium materials with practicality.

design Daniele Dalla Pellegrina, 2024

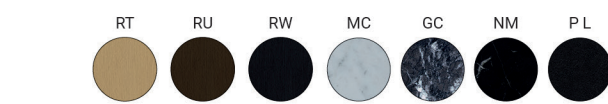

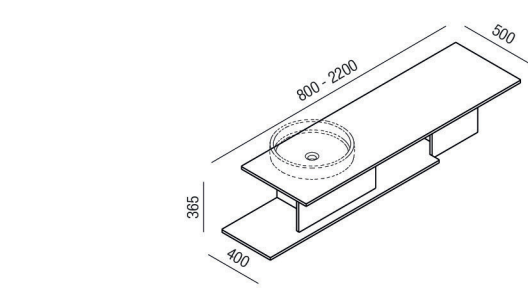

System / Sistema

Bloque
Systems / Sistema

Patricia Urquiola highlights the materiality of stone and wood through open compositions and the geometric rigor of the *Bloque* system. The design plays with juxtaposed and perpendicular planes, creating a staggered movement between the surfaces. The reduced depth of the lower shelf adds dynamism and improves the system's ergonomics. Thanks to its versatility, *Bloque* can accommodate all Agape countertop basins and be used not only in bathrooms but also in other areas of the home and in the hospitality sector, offering a unique combination of aesthetics and functionality.
