Agape

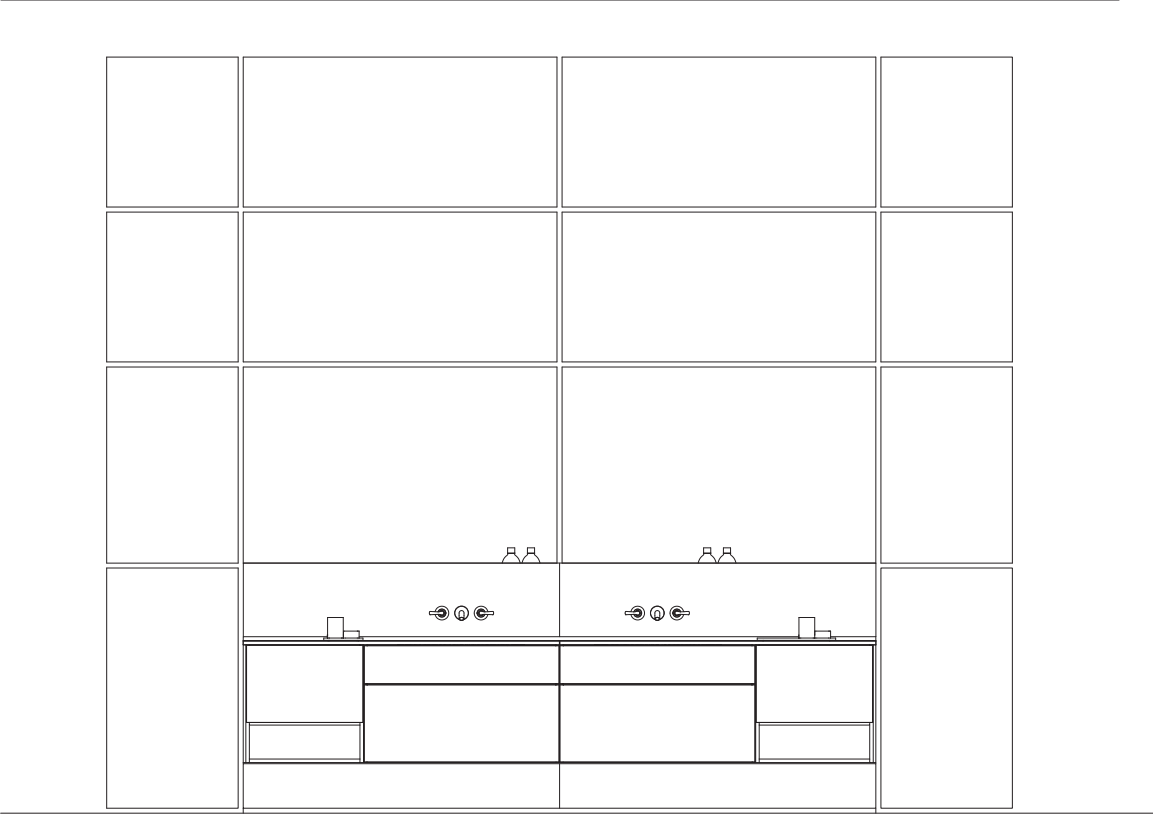

New Elements

Craft
Systems / Sistema

ENG Craft is a modular storage system designed by Benedini Associati, conceived to offer maximum flexibility in both composition and installation. Freestanding, wall-mounted, or recessed into architectural niches, it adapts with ease to a wide range of spatial contexts. With its pure volumes, refined edges, and careful attention to detail, Craft becomes more than a container: it is a structural element that shapes and defines the space around it. Built with high-quality materials and componentry, and fully customizable in dimensions, finishes, and configurations, Craft reflects Agape's commitment to tailor-made solutions that balance function and expression.

design Benedini Associati

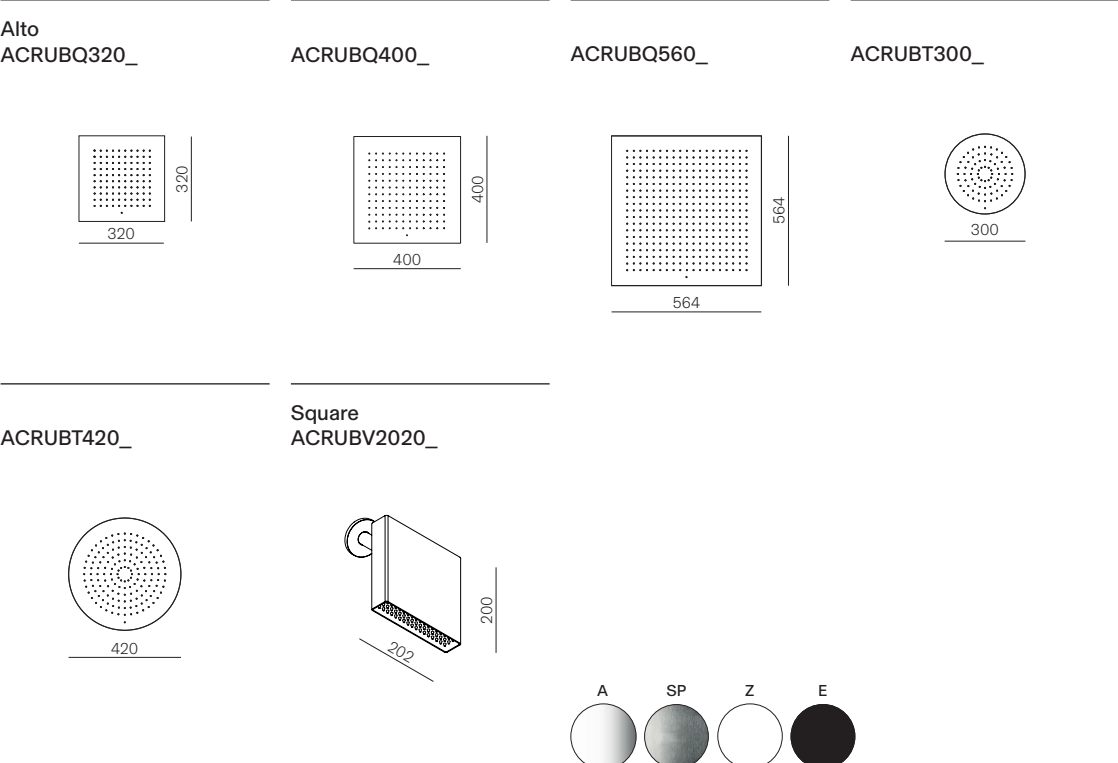

Showerheads
/ Soffioni

ENG Alto is a family of ceiling-mounted showerheads in AISI 304 stainless steel, characterized by minimal thickness and quiet, architectural clarity. Available in three square and two round versions, Alto brings a measured presence to spaces, blending naturally into various atmospheres.

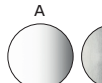

In parallel, the Square series also introduces a new, angular element within the collection. With its precise geometry and finishes, it offers versatility for both indoor and outdoor environments, seamlessly integrating into architectural and natural contexts.

Alto, design RD Agape
Square, design Benedini Associati

ITA Alto è una famiglia di soffioni a soffitto in acciaio inox AISI 304, caratterizzata da uno spessore minimo e da una chiarezza formale silenziosa e architettonica. Disponibile in tre versioni quadrate e due tonde, Alto porta negli spazi una presenza misurata, integrandosi con naturalezza nei contesti più diversi.

Parallelamente, la serie Square introduce un nuovo elemento dalle geometrie nette. Con le sue linee e finiture precise, il nuovo soffione della famiglia offre versatilità sia per ambienti interni che esterni, integrandosi con coerenza in contesti architettonici e naturali.

Memory Classic
Taps / Rubinetti

ENG Memory Classic revisits the archetype of traditional taps through a contemporary lens, balancing heritage and innovation with Agape's signature precision. Part of the Memory collection—an ongoing exploration of the cultural roots of the modern bathroom—this series introduces softer, more rounded forms. Generous thicknesses and curved profiles lend a sense of warmth and familiarity, enriching the timeless clarity that defines the collection.

design Benedini Associati

Settecento
Bathtub / Vasca

ENG Designed by Benedini Associati, Settecento is the newest addition to Agape's Memory collection, joining the iconic Ottocento bathtub in exploring classical forms through a contemporary lens. Its freestanding volume is defined by soft, continuous curves and carefully balanced proportions, evoking the charm of traditional bathtubs while expressing a sense of refined simplicity. Crafted from Cristalplant® Biobased, Settecento combines material depth with visual lightness—an object that bridges past and present with quiet confidence.

design Benedini Associati

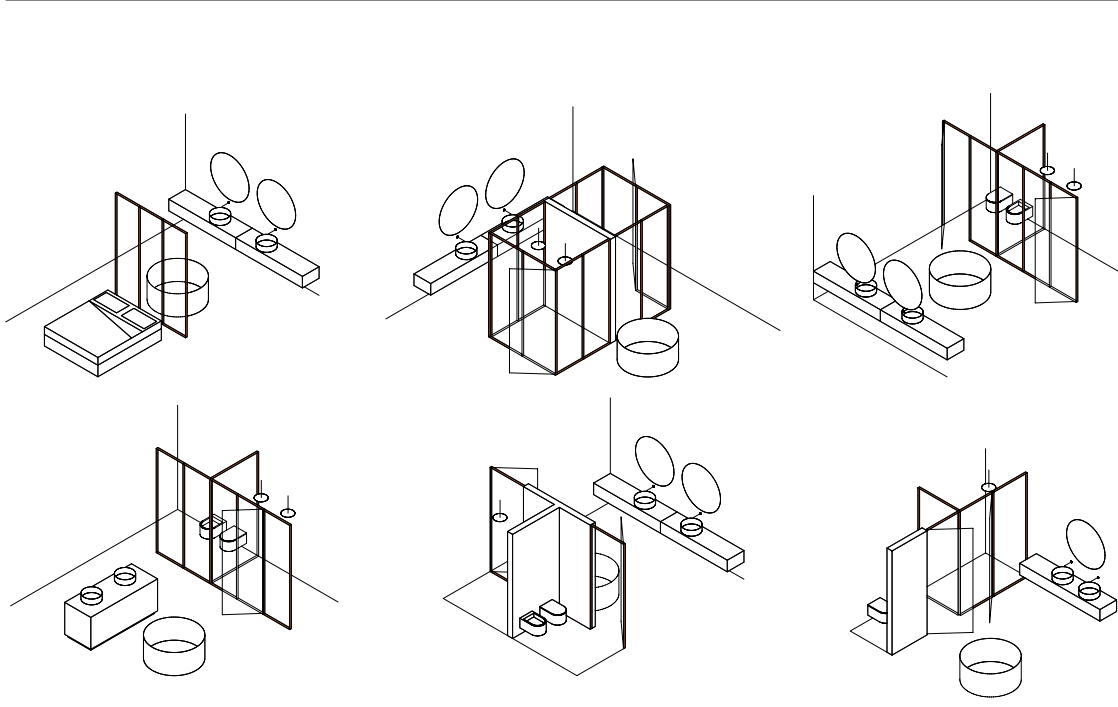

ITA Progettata da Benedini Associati, Settecento è la nuova vasca che si aggiunge alla collezione Memory di Agape, affiancandosi all'iconico Ottocento nell'esplorazione delle forme classiche attraverso una lente contemporanea. Il suo volume è caratterizzato da curve morbide e continue e proporzioni accuratamente bilanciate, evocando il fascino delle vasche tradizionali, pur esprimendo una sensazione di semplicità raffinata. Realizzata in Cristalplant® Biobased, Settecento unisce la profondità materica alla leggerezza visiva, diventando un oggetto che collega passato e presente con discreta eleganza.

DIV
Partitioning system / Sistema di partizioni

ENG Div is a modular partitioning system designed by Castiglia Associati, conceived to organize and define spaces through a refined aluminium frame and large glass panels. Reaching up to three metres in height, it lends structure and lightness to both wet and dry environments—from bathrooms and wellness areas to living and hospitality spaces. Suitable for both floor-to-ceiling and partial-height installations, Div adapts with ease to different architectural settings. The custom-developed aluminium profile ensures stability and precision, even at significant heights. With optional gaskets for water sealing, it can also function as a shower enclosure, offering visual continuity and a near-transparent architectural presence. A wide range of finishes for profiles, glass, and handles allows for seamless integration into diverse interior contexts.

design Castiglia Associati

ITA Div è un sistema modulare di partizione disegnato da Castiglia Associati, pensato per organizzare e definire lo spazio attraverso un profilo in alluminio raffinato e ampie superfici vetrate. Con un'altezza massima di tre metri, conferisce struttura e leggerezza a spazi umidi e asciutti—dal bagno e le aree wellness agli spazi living e dell'ospitalità. Può essere installato a tutta altezza o in configurazioni semisparte, adattandosi con naturalezza a diversi contesti architettonici. Il profilo in alluminio su misura garantisce stabilità anche in soluzioni di grandi dimensioni. Dotato di guarnizioni opzionali per la tenuta all'acqua, può essere utilizzato anche come parete doccia, offrendo continuità visiva e una presenza quasi trasparente. Una vasta gamma di finiture consente un'integrazione armoniosa in tutti gli ambienti.

Cristalplant® Biobased color-in-mass
/ Cristalplant® Biobased colorato in pasta

ENG Cristalplant® Biobased color-in-mass introduces a new level of depth and consistency in solid surface materials. With full-depth pigmentation, the colour is integrated throughout the entire body—not applied on the surface—making it uniform, durable, and easy to repair. Currently exclusive to Agape, the material is initially available in an elegant light grey tone, with other shades in development. It offers a new expressive possibility for refined, long-lasting surfaces.

design Benedini Associati

Nudo XL
Modular boiserie / Boiserie attrezzata

ENG Nudo XL reinterprets the concept of boiserie as a modular, wall-mounted system that transforms vertical surfaces into architectural elements. Designed to host accessories, mirrors, and shelving, it brings rhythm and depth to the space through a careful balance of structure and material. The latest addition to the system is a suspended storage unit that expands its functional scope while preserving the signature visual lightness. Finishes in Palissandro Indiano and mirror further enrich the compositions, creating subtle plays of reflection and warmth within a unified spatial language.

design Benedini Associati

ITA Nudo XL reinterpreta il concetto di boiserie come un sistema modulare a parete che trasforma le superfici verticali in elementi architettonici. Progettato per ospitare accessori, specchi e mensole, conferisce ritmo e profondità agli spazi attraverso un equilibrato connubio di struttura e materiale. L'ultima novità del sistema è un vano sospeso che amplia la funzionalità del progetto mantenendo la leggerezza visiva caratteristica. Le finiture in Palissandro Indiano e specchio arricchiscono ulteriormente le composizioni, creando sottili giochi di riflessi e calore all'interno di un linguaggio spaziale coerente.
