WORLD.**

** COMPOSIT<sup>®</sup>**

## **COMPOSIT: Kitchens for a lifetime**

Since the 1970's Composit has embarked on its mission in the world of furniture, with the aim of creating modern, practical and design kitchens, unmistakable for their style, elegance and quality.

Constantly projected into the future, **Composit has grown to become today an international brand,** synonymous with Made in Italy excellence.

Not only modern or traditional kitchens, but also closets for bedrooms and **day systems capable of transforming the living room into a modern, original and refined environment.**

In this book we have collected our best creations to show you **how our collections make each project unique.**

## / STRADELLA LOS ANGELES

collection: **LINEA PURE**

door Finish: **Black pewter**

table: **Natural Wood Abete saponato**

designer: **D.I. Group**

Lounge collection is a perfect interpretation of luxury in the kitchens.

Luxury, craftsmanship and innovation: pillars and synthesis are the base of the project of this **upscale residence in Los Angeles designed by our Beverly Hills dealer, D. I. Group.**

The style of Lounge matches perfectly with the modern and minimal style of the house and, at the same time, differs from other proposals for the high quality and craftsmanship of finishes and materials.

Aware of the potential of Lounge in terms of customization, our Beverly Hills dealer, D. I. Group has created harmony with the entire environment through a **combination of black pewter finishes and abete saponato natural wood.**

But it is the details that make the difference: **the 45 degree fitting between the islands made of natural wood, the same material used for the table and the interior of the display cabinets, built manually with recycled solid wood slats, gives the creation a unique look.**

## / TIGERTAIL LOS ANGELES

collection: **LINEA PURE**

door/table Finish: **Wood veneered Eucalyptus**

island: **Laminam Nero Greco**

designer: **D.I. Group**

Located in the heart of Los Angeles hills, this mansion is a perfect combination of elegance, design and minimalism.

In this project, **the client chose Composit Kitchens to furnish the kitchen area, characterized by an essential and minimal design, perfectly fitting with the rest of the environment.**

After a careful analysis of the customer's needs and expectations, we have designed and delivered a kitchen of the Linea Pure collection, featuring a project of our dealer of Beverly Hills, D. I. Group.

This modern luxury kitchen, the result of careful aesthetic research, turned out to be the perfect choice. Its details, such as **the absence of handles and the opening through the recessed handle profile**, made it the heart of the house.

It was then the details that represented the main strength: the material continuity between the countertop and the doors, made possible by the use of the same ceramic material, Laminam Nero Greco, able to give the whole island a monolithic appearance, as well as guaranteeing extreme resistance.

The columns area, suitable for the containment, was enhanced by a frame of **showcases made of smoked glass and a black frame**, which is reduced in depth compared to the wooden columns.

The design is completed by the **table in eucalyptus wood integrated into the island** and welcomed by a bright open space adjacent to the dining room, the living room and, thanks to the windows, also to the external environment.

## / KUPFERMAN NEW YORK

collection: **NOISETTE**

door Finish: **American walnut, Glossy lacquered A07**

table: **Ligna gray**

designer: **Artistic Kitchen designs**

Our Noisette collection was chosen for an important residential project in the USA.

One of the most successful interpretations of a new contemporary classicism, **born from the mind and inspiration of Roberto Lazzeroni, art director of Giorgetti and collaborator of Poltrona Frau and Flexform.**

For this project, we selected - among the various available finishes - **American walnut for tall units and wall units and glossy beige lacquer for base units.**

The palette of finishes and colors not only enhances the comfort and luxury of the kitchen area, but also highlights the Noisette handles in solid walnut and stainless steel for base units, a trademark of innovation by Composit.

**The integrated handle for tall units and wall units enhances the lines and design of the kitchen.**

## / ACADEMIA LOS ANGELES

collection: **LOUNGE**

door Finish: **White Matt Lacquered**

colonna a giorno: **Ligna gray**

open unit: **Integrated Lounge handle, Titanium finish**

table: **Ligna gray**

designer: **D.I. Group**

On the famous hills of Los Angeles (CA) **our Beverly Hills based dealer, D.I. Group, furnished a splendid villa**, bringing to life a great example of class and sophistication. Our collection Lounge was chosen for the kitchen area.

Essential and minimal in its forms, this kitchen has a unique design, thanks to details like **the elegant open cabinet in Ligna Gray** and the white mat lacquered doors.

The table (in Ligna Gray) **creates a sharp while pleasant contrast**, that highlights the refined white color of the furniture.

A chromatic choice that **gives breadth to the open space which embraces the living room and kitchen**, overlooking the garden with a pool.

Lounge creates **a refined kitchen that blends harmoniously with the living area**, conveying a new way to imagine everyday spaces.

Kitchen Collection MADE IN ITALY FOR THE WHOLE WORLD

## / WESTLAKE AUSTIN

collection: **LOUNGE**

kitchen door finish: **White Glossy Lacquered**

bathroom door finish: **Ligna Italian Walnut**

handle: **Integrated Lounge handle, Titanium finish**

designer: **Brown & Beaux**

photo credits: **Michael Muller**

The Composit Kitchens Flagship Store by Brown & Beaux **has designed the furnishings of a modern and luxurious villa in Austin (Texas).**

The client's request was clear: create perfect harmony and coherence in all spaces of the house.

For this reason, the elegance of **the Lounge collection was chosen both for the kitchen and living area, and for the bathroom.**

The white of the **lacquered doors of the kitchen expresses pure refinement**, and is expertly combined with the gray tones of the countertop and the metallic ones of the appliances.

**The integrated handles** – a key feature of the Lounge collection - enhance the design of the furniture and highlight the detail of each finish.

The extreme customization capability by Composit kitchens gives you the chance to make bold experiments.

In this case, **the accessories of the Lounge kitchen have also been skillfully used in the bathroom, with floating vanities.**

## / VALLEY VISTA ENCINO

collection: **LOUNGE**

door finish: **Resin (cement effect) anthracite**

handle: **Integrated Lounge handle, Titanium finish**

plinth: **Titanium finish**

breakfast table: **Walnut veneer**

designer: **D.I. Group**

Our dealer D.I. Group **oversaw the furnishing of the VALLEY VISTA project**, a luxury house located in the Encino neighborhood, in the city of Los Angeles.

The choice proved successful, as the realization **was awarded as the best residential project at the CERAMICS OF ITALY TILE COMPETITION 2019.**

The kitchen area has been furnished entirely with the LOUNGE collection, **giving life to an elegant design with essential shapes.**

The maximum expression of Lounge is the **integrated vertical titanium handle that enhances the details of each finish**, maintaining a contemporary, precise and essential style.

The breakfast table in **walnut veneer is an ideal solution for living the space of the kitchen**, during the preparation of meals as well as in precious moments of conviviality.

The smooth contrast between the **anthracite gray of the finishes and the refined white of the furniture** proved to be an appropriate choice to give harmony and elegance to the kitchen area, extending a **sense of conviviality to the entire living environment.**

Designed with these precise goals by Enrico Cesana, Lounge succeeds perfectly in the intent of **creating continuity between the kitchen and the different environments.**

## / MARLAY HOLLYWOOD HILLS

collection: **LINEA PURE**

door finish Island: **Laminam Nero Greco**

door finish tall units: **Matt Lacquered RAL 7021**

table and boiserie: **Antique Wood**

designer: **D.I. Group**

**The warm tones of the antique wood and the modern elegance of the Laminam Nero Greco** enhance the essentiality and refinement of the Linea collection in this villa in Los Angeles furnished by D.I. Group.

The contrasting colors help in creating **a warm and welcoming environment throughout the living environment.**

The support surface in the living room links the two environments perfectly.

The intended use of each accessory is enhanced by their shades: dark colors for appliances and hobs, where ergonomics and technology give life to the kitchen; **warm tones of wood for moments dedicated to enjoying the space.**

The absence of handles and the opening through the groove - distinctive features of the Linea collection - **make the aesthetic impact of the chosen finishes to be enhanced to the highest level.**

Conceived by the Delta Studio designer studio, Linea is a perfect **synthesis of a modern kitchen with an essential design.**

## / BARLETTA PUGLIA

collection: **TOUCH**

door finish: **Dim Gray Resin / Gray stained Oak veneer R07**

countertop: **Dekton Kelya with integrated sink**

plinth: **Titanium finish Alluminum**

In this apartment located in Puglia, **the TOUCH collection impresses for the REFINEMENT** and cleanliness of the design, very effective in enhancing a living environment with limited space.

The material continuity of the doors with the kitchen worktop - **magnified by the absence of visible handles** - emphasizes every detail, suggesting the great ergonomics and functionality of each element.

An intrinsic design coherence of the Touch collection which is amplified by the **savvy combination of materials and finishes**.

The dekton Kelya of the countertops binds seamlessly to the finishes chosen for the doors, complementary shades that make the **details in metallic shades** - such as the titanium-finish aluminum of the plinth and appliances - to stand out, **outlining the different uses of each environment**.

## / HOLT BEVERLY HILLS

collection: **LINEA 30**

door finish: **White lime glossy lacquered**

table finish: **Heat treated Oak Laminate**

plinth: **Anodized Aluminum**

designer: **D.I. Group**

The one curated by D.I. Group for this luxurious villa in Los Angeles has been an ambitious project, where it was necessary to create **a perfect harmony between living space, kitchen and outdoor.**

The Mood collection turned out to be the winning choice thanks to the expressive potential that can be obtained **by combining a wide range of finishes and materials.**

The chosen color palette, which includes the innovative thermal oak B.P laminate, succeeds in **enhancing the bright colors of the swimming pool and outdoor green spaces.**

The glossy white lacquer of the doors and the details in anodized aluminum **blend perfectly with the warmer tones of the wood and the floor**, creating a warm and welcoming environment.

The absence of handles - thanks to the inclined cut in the terminal part of the doors that allows a groove opening - **enhances the refinement of a minimal, yet extremely detailed, design** of the Mood collection.
