Framework

- 04 Entryway
- 12 Living Room
- 20 Dining Room
- 28 Walk-in Closet

Disegnato da Piero Lissoni per Lualdi, Framework è il sistema che trasforma la boiserie da semplice superficie di rivestimento a infrastruttura attiva dello spazio. Grazie alla tecnologia del telaio, Framework integra vani di apertura, elementi funzionali e di illuminazione, trasformando lo spessore murario in uno spazio abitabile.

Designed by Piero Lissoni for Lualdi, Framework transforms boiserie from simple wall cladding into an active infrastructure within the space. Thanks to its frame technology, Framework integrates openings, functional elements and lighting, turning wall thickness into a liveable space.

Dettaglio delle mensole in noce canaletto e cassettiere in finitura laccato lucido blu, colore al campione. A destra: boiserie con porta integrata filo spingere in finitura Matrix, noce canaletto. Stipite e bordo anta in alluminio brown.

Detail of shelves in Canaletto walnut and drawer units in a gloss blue lacquered finish, colour as sample. Right: boiserie with integrated push-to-open flush door in Matrix finish, Canaletto walnut. Jamb and door edge in brown aluminium.

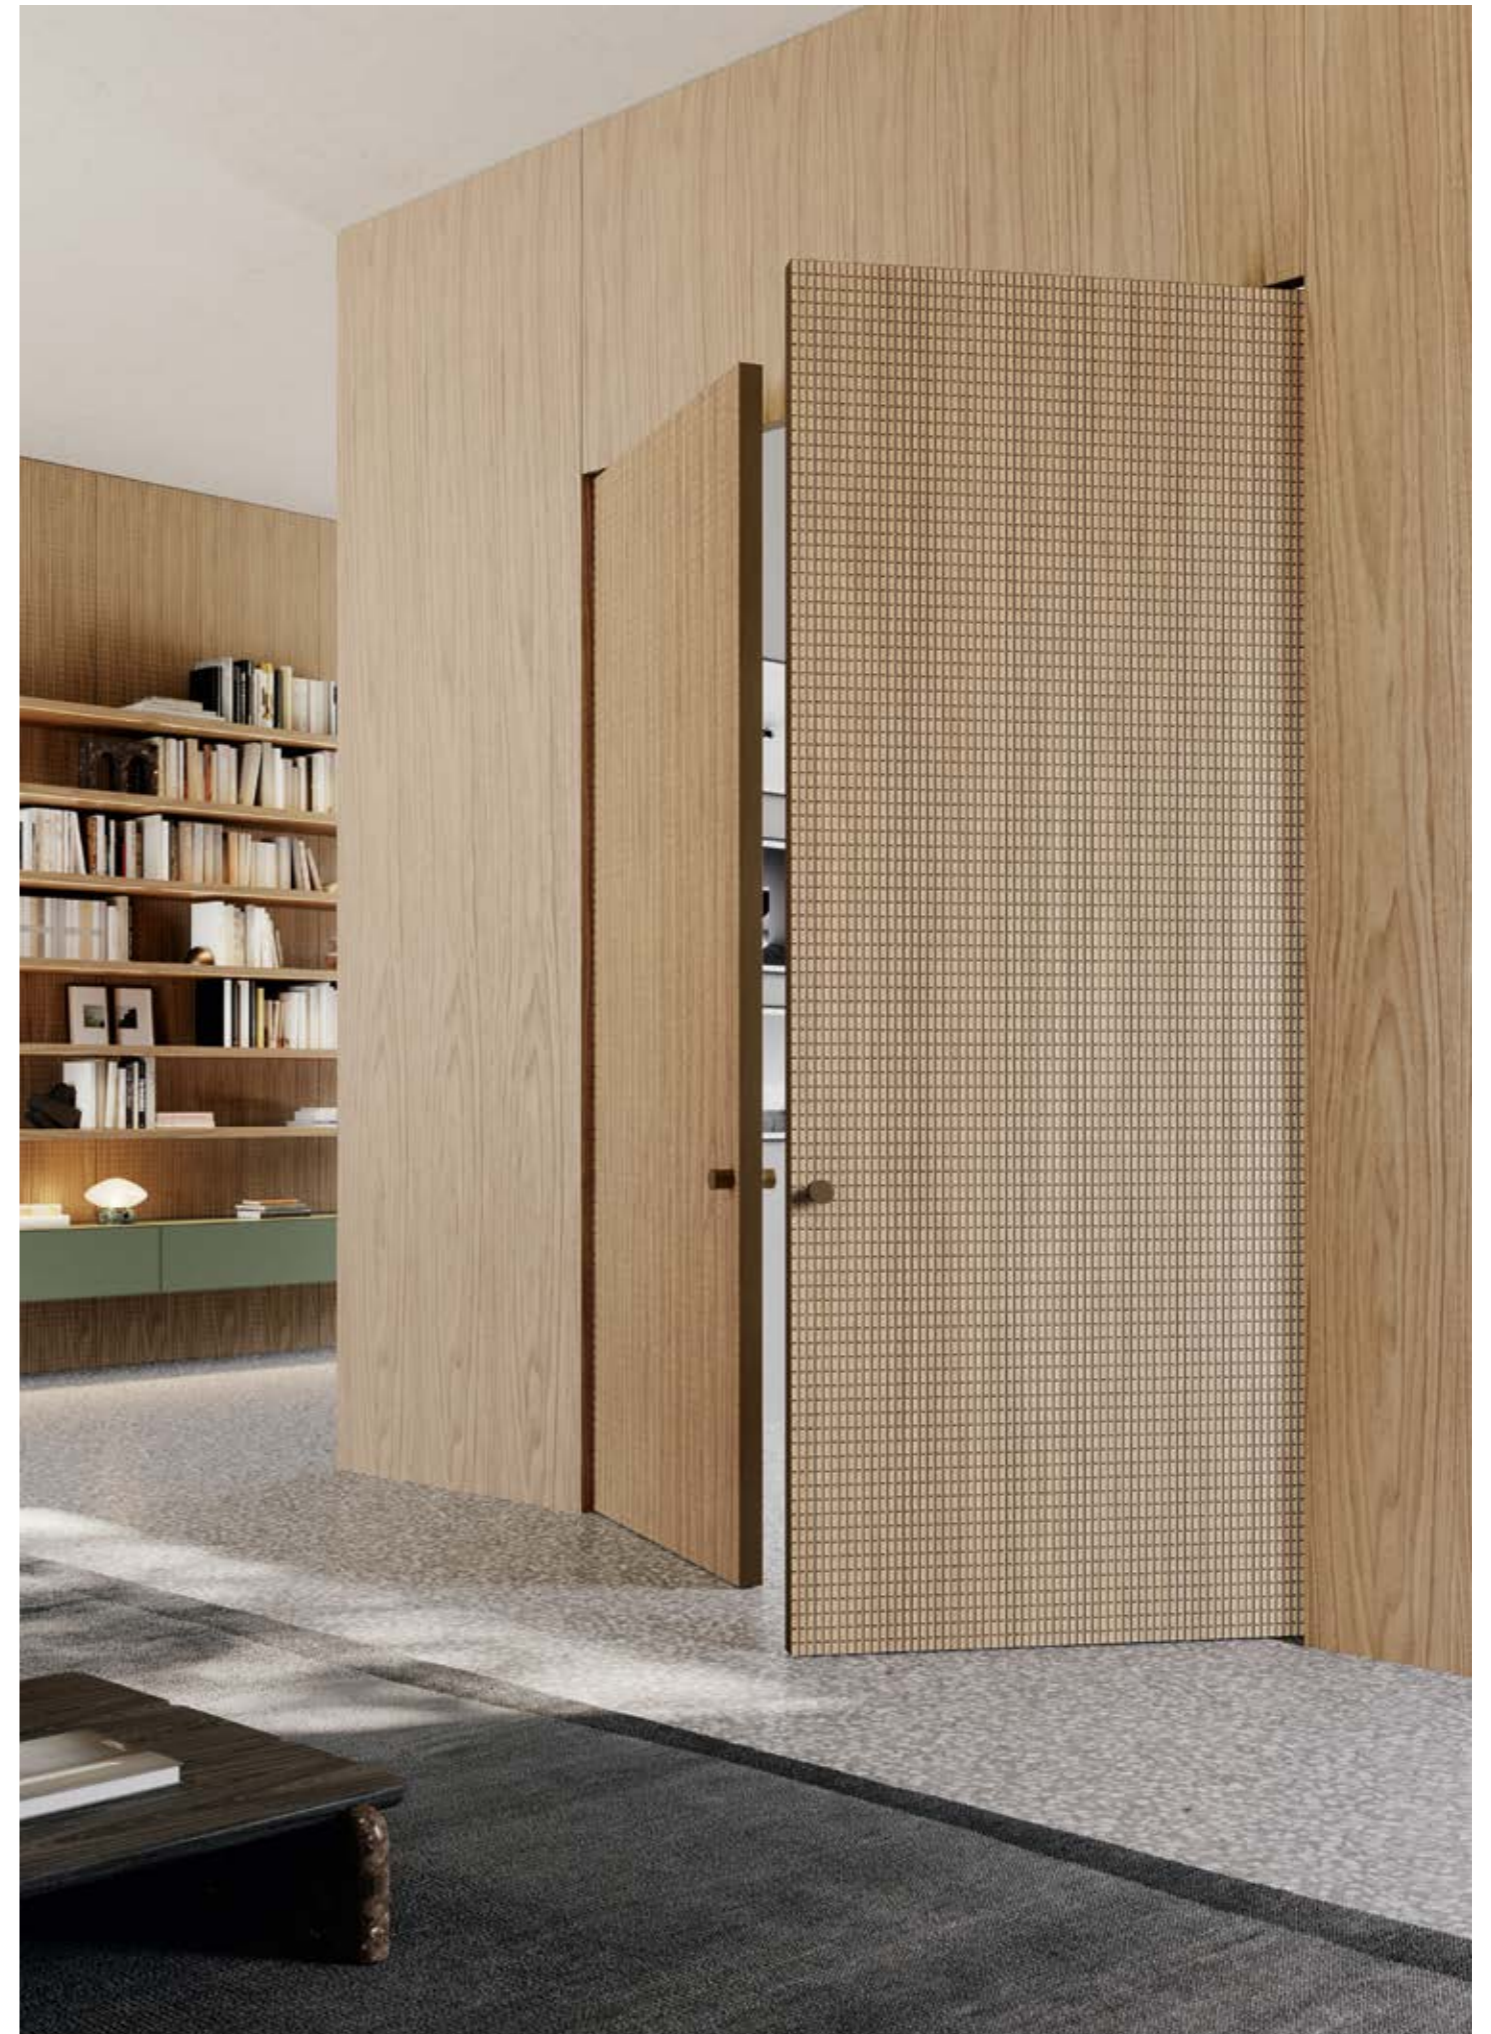

Framework è in grado di integrare molteplici sistemi di apertura. Nel dettaglio, porta a battente filo tirare in noce canaletto con maniglia in alluminio brown, affiancata da pannelli scorrevoli Shoin con vetro bronzo trasparente e profili in alluminio brown.

Framework accommodates a wide range of door solutions. Specifically, a pull-to-open flush hinged door in Canaletto walnut with brown aluminium handle, flanked by Shoin sliding panels with transparent bronze glass and brown aluminium profiles.

Con Framework Lualdi racconta la propria visione dell'architettura d'interni: una ricerca che parte dal dettaglio costruttivo e si estende alla costruzione dello spazio. Grazie alla tecnologia del telaio, il sistema è in grado di organizzare la parete come un'infrastruttura modulare, integrando elementi funzionali – mensole, contenitori, vani a giorno e sistemi di illuminazione – a diverse tipologie di porte, battenti e pivot.

With Framework, Lualdi expresses its vision of interior architecture: an approach that begins with construction details and extends to the definition of space. Thanks to its frame technology, the system organises the wall as a modular infrastructure, integrating functional elements – shelves, storage units, open compartments and lighting systems – with various door types, including hinged and pivot solutions.

La boiserie alterna superfici in rovere naturale a porzioni con decoro Chocolat R nella medesima finitura. Il sistema integra mensole illuminate e cassettiere in finitura laccato opaco verde salvia, colore al campione.

The boiserie alternates natural oak surfaces with sections featuring the Chocolat R décor in the same finish. The system incorporates illuminated shelves and drawer units in a matt sage green lacquered finish, colour as sample.

Porta a doppia anta pivot, senza battuta, in finitura Chocolat R rovere naturale, con bordo in alluminio bronzo.

Double pivot door, without rebate, in Chocolat R natural oak finish, with bronze aluminium edge.

Attraverso la combinazione di materiali eterogenei - legno, vetro e alluminio - Framework propone una lettura sistemica dell'architettura d'interni, in cui la porta diventa parte di un organismo spaziale più ampio. Il sistema introduce inoltre una nuova anta con spessore di 61 mm e telaio dedicato in alluminio, che consente un elevato grado di personalizzazione delle finiture e migliora le prestazioni acustiche dell'elemento.

By combining wood, glass and aluminium, Framework proposes a holistic approach to interior architecture, in which the door forms part of a wider spatial composition. The system also introduces a new 61 mm door leaf with dedicated aluminium frame, offering extensive scope for customised finishes and enhanced acoustic performance.

Boiserie in rovere grigio con decoro Linea A. La nicchia, caratterizzata da un sistema di mensole illuminate in vetro extrachiaro trasparente e profili neri, viene schermata dalle ante L7 Bi-folding in vetro Mini Flutes trasparente con profili neri.

Boiserie in grey oak with Linea A décor. The niche, defined by a set of illuminated shelves in extra-clear transparent glass with black profiles, is screened by L7 Bi-folding doors in transparent Mini Flutes glass with black profiles.

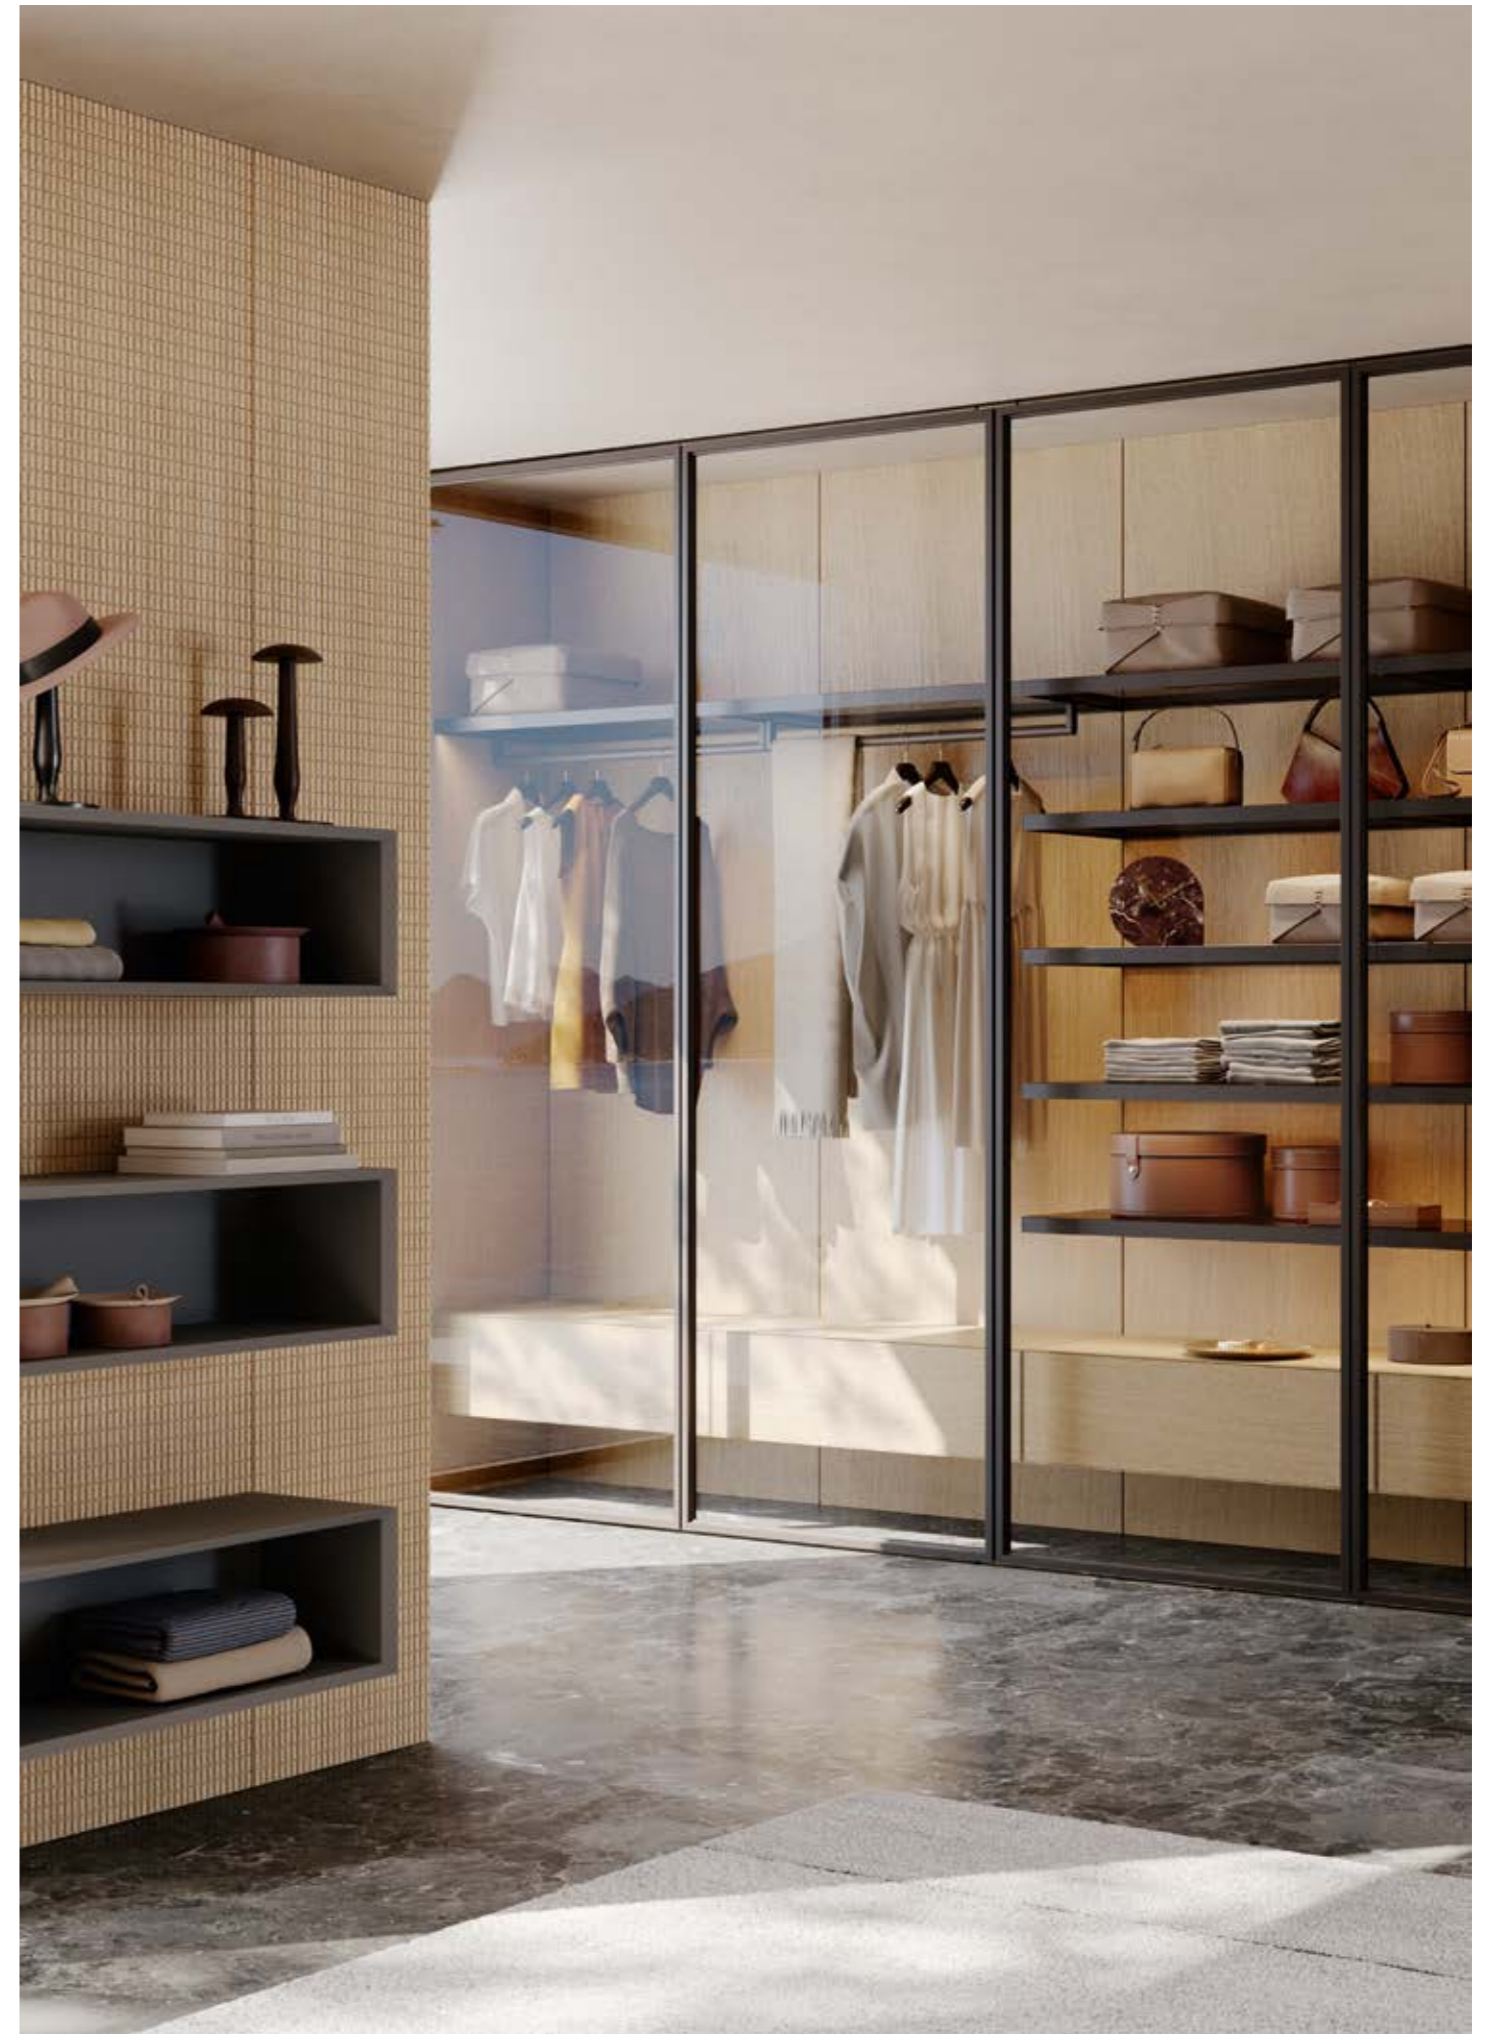

Porta battente a filo tirare a tutta altezza, in finitura rovere grigio. Stipite, bordo anta e maniglia in alluminio brown.

Full-height pull-to-open flush hinged door in grey oak finish. Jamb, door edge and handle in brown aluminium.

Il sistema firmato da Piero Lissoni per Lualdi diventa l'infrastruttura in cui porte, pareti attrezzate e partizioni leggere dialogano costruendo un paesaggio domestico continuo. Framework integra vani di apertura, mensole e contenitori, dando vita a configurazioni in cui la porta scompare all'interno del disegno della parete. Quest'ultima diventa quindi uno strumento progettuale capace di articolare lo spazio e di accogliere funzioni diverse.

The system designed by Piero Lissoni for Lualdi becomes a complete infrastructure in which doors, equipped wall systems and lightweight partitions interact to shape a continuous domestic landscape. Framework brings together openings, shelving and storage, creating compositions in which the door seamlessly disappears into the overall wall design. The wall itself becomes a design tool, able to organise space and accommodate a variety of functions.

Nella cabina armadio, la boiserie accoglie mensole in vetro trasparente bronzo e alluminio brown e cassettiere in rovere sbiancato.

Le ante L7 Bi-folding, con vetro extrachiaro trasparente e profili in alluminio brown, chiudono la parete con leggerezza e impalpabilità.

In the walk-in wardrobe, the boiserie incorporates shelves in transparent bronze glass and brown aluminium, with drawer units in bleached oak. L7 Bi-folding doors, in extra-clear transparent glass with brown aluminium profiles, close the wall with a sense of lightness and continuity.

Boiserie in rovere sbiancato con cassettiere nella medesima finitura. Mensole in vetro bronzo trasparente con profili in alluminio brown.

Bleached oak boiserie with drawers in the same finish. Transparent bronze glass shelves with brown aluminum profiles.

La boiserie in finitura Chocolat R rovere sbiancato, con vani a giorno in laccato opaco grigio custom, affianca la superficie liscia della parete adiacente, caratterizzata da mensole in vetro trasparente bronzo e alluminio brown, come le barre appendiabiti, e cassetti in rovere sbiancato.

The Chocolat R bleached oak boiserie, with open compartments in a custom matt grey lacquer, sits alongside the smooth surface of the adjacent wall, defined by shelves in transparent bronze glass and brown aluminium – which echo the hanging rails – and drawers in bleached oak.

La porta pivot a tutta altezza, in ecopelle moka con profili e maniglia in alluminio bronzo, caratterizza l'ingresso della cabina armadio, integrandosi con le pareti rivestite in essenza rovere moka.

Le boiserie accolgono mensole e cassettiere, che alternano la matericità del legno alla leggerezza del vetro.

A full-height pivot door in moka faux leather, with bronze aluminium profiles and handle, marks the entrance to the walk-in wardrobe, blending with the walls in moka oak. The boiserie integrates shelves and drawer units, balancing the material richness of wood with the lightness of glass.

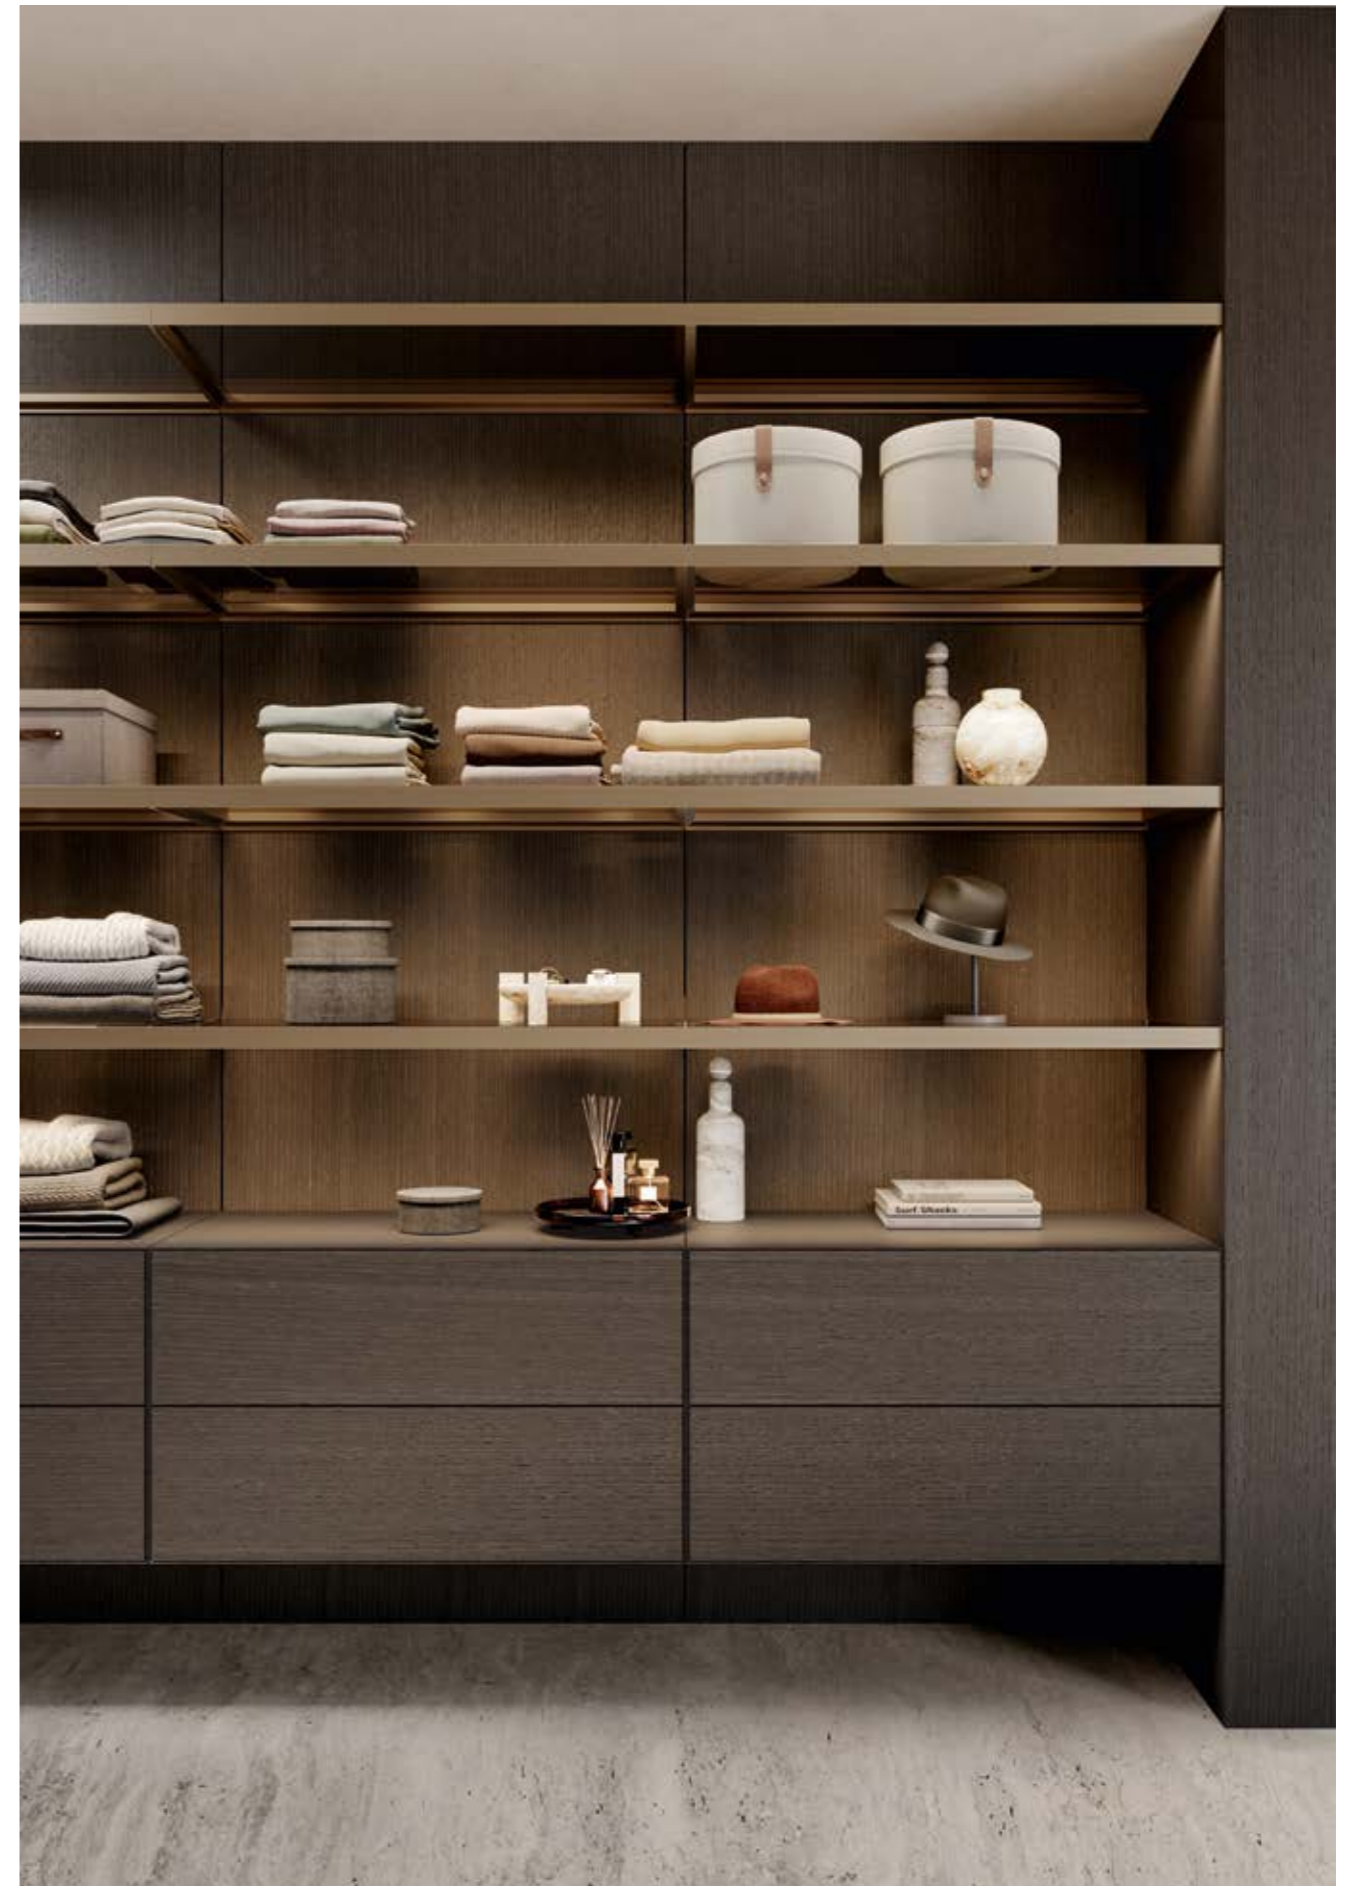

Dettaglio della porta integrata in boiserie, con rivestimento in ecopelle moka e profili in alluminio bronzo. A destra, dettaglio del ripiano scarpe in essenza rovere moka con profili in alluminio bronzo.

Detail of the door integrated within the boiserie, finished in moka faux leather with bronze aluminium profiles. Right: detail of the shoe shelf in moka oak with bronze aluminium profiles.

Framework caratterizza il progetto di questa cabina armadio, integrando sistemi di apertura ed elementi funzionali. I cassetti in essenza rovere moka e le mensole in vetro trasparente bronzo e alluminio bronzo rendono dinamica la parete rivestita in finitura rovere moka.

Framework defines the entire walk-in wardrobe scheme, combining opening solutions with functional elements. Drawer units in moka oak and shelves in transparent bronze glass and bronze aluminium introduce a dynamic rhythm to the wall in the moka oak finish.
