COMPANY PROFILE

OUR VALUES

OUR VALUES

A FAMILY HISTORY

Composit's corporate history begins officially in 1960 with an idea of Belligotti Brothers, with the opening of a 9,000 square-meter production unit in the furniture sector, distributed under the brand Belligotti.

In 1974, the brand Composit was founded, entirely dedicated to the production of kitchens, with the extension of the surface, up to the current 12,000 sq. meters, area currently occupied by the entire production cycle of Composit kitchens and wardrobes.

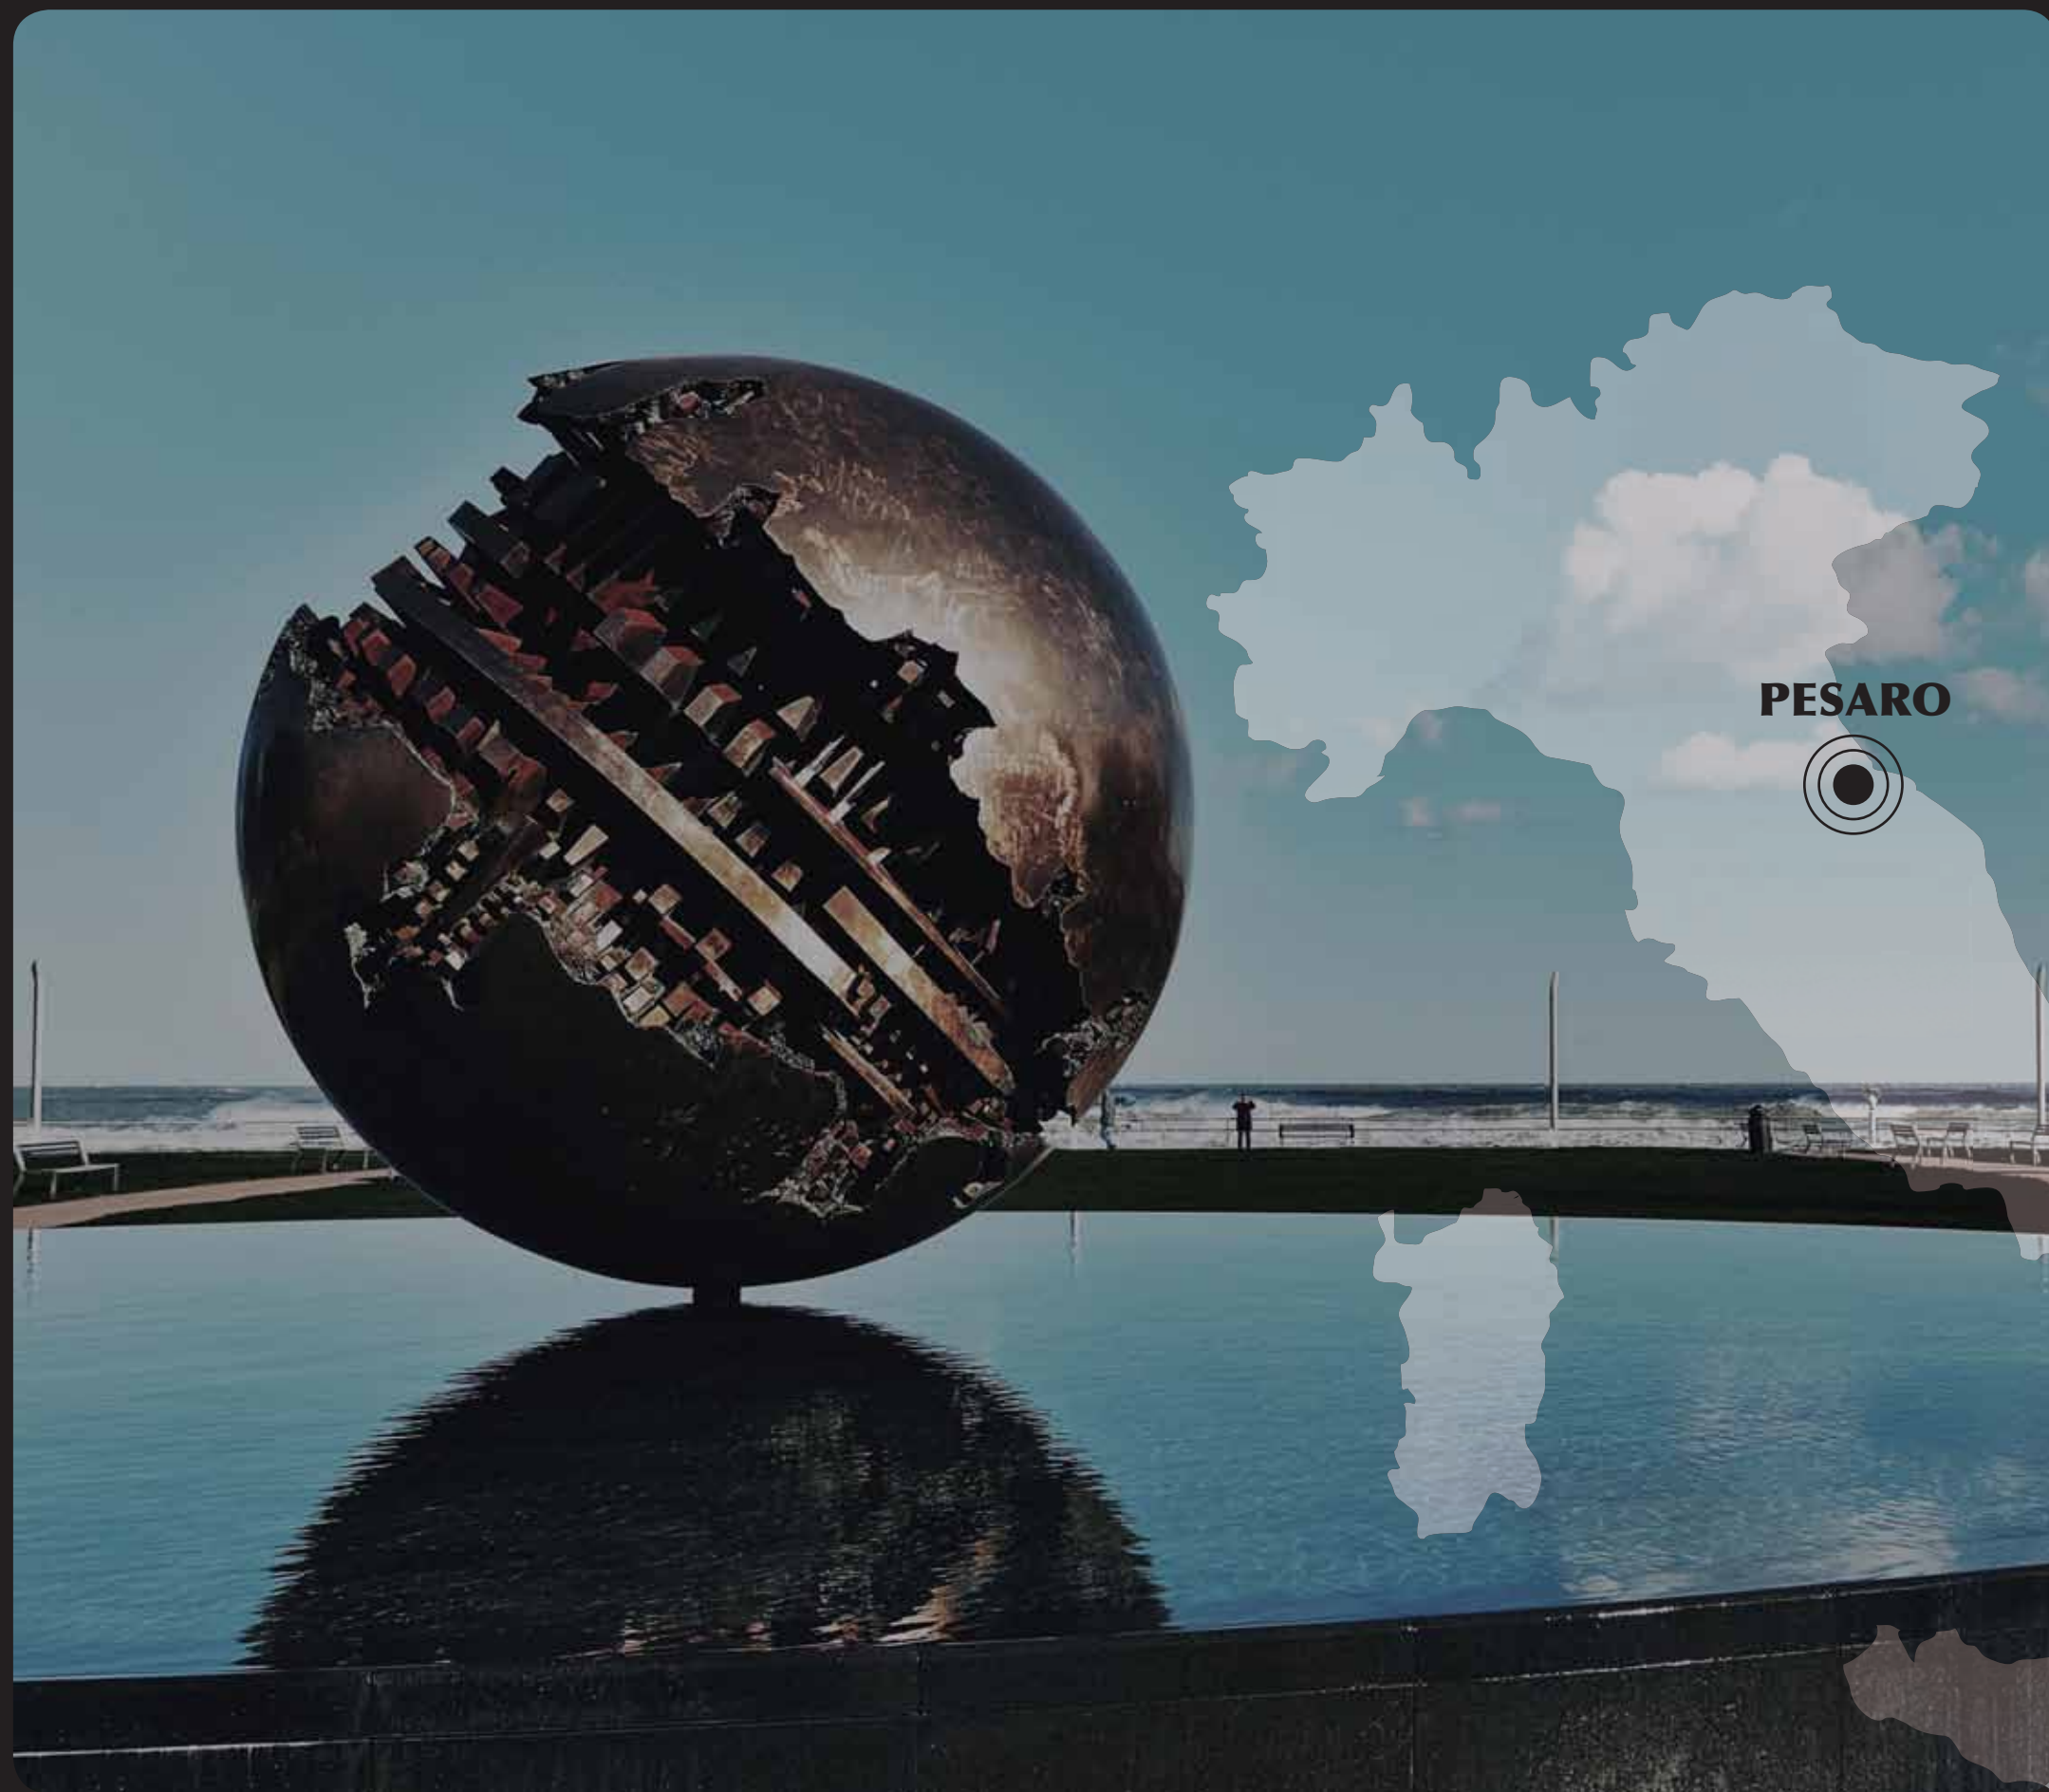

OUR VALUES

MADE IN ITALY

Our products are entirely manufactured in Italy. Composit prides itself on being one of the companies that helped shape the “Made in Italy” brand as a global synonym for excellence in design.

We believe that “Made in Italy” is a true treasure of our nation’s history and culture one with enduring value, worthy of being protected and preserved.

OUR VALUES

THE TERRITORY: OUR IDENTITY

It is typical of Italian historical companies to root in their territory, full of specific and refined skills that make up the experience and passion of making great Italian traditions.

A passion that originates in the history and geography in which the Belligotti Group was born: the district of **Pesaro**, where the entire production cycle of kitchens and wardrobes is still being handled today.

Situated in the industrial district of Pesaro, we benefit from a dense network of suppliers that continuously provides us with inspiration, innovation, and exceptional production flexibility.

OUR VALUES

SUSTAINABILITY

Composit's sustainability vision stems from a clear awareness: protecting our fragile ecosystem requires concrete, immediate action. This commitment takes shape every day across all company divisions, where a structured approach to environmental responsibility guides decisions and processes.

Our ongoing initiatives include: the use of clean energy produced by photovoltaic panels, the supply of purified water for our employees, the progressive elimination of plastic from our packaging, the strict adherence to Composit's FSC certified material sourcing and the use of CARB-2 compliant panels with the lowest emissions of formaldehyde.

We further reduce environmental impact by recovering production waste materials and reusing them to heat our facilities. Together, these actions reflect a long-term strategy designed to reduce impact, enhance efficiency, and uphold a responsible manufacturing culture.

COMPANY PROFILE

OUR CORE STRENGTHS

Piergiorgio Cazzaniga, Enrico Cesana, Leone+Mazzari, Roberto Lazzeroni, Bizzarri Design

OUR CORE STRENGTHS
1 / DESIGN - PATENTS

Design Driven by a deep passion for design, Composit has always embraced creative dialogue with diverse, internationally acclaimed designers, allowing multiple visions and stylistic languages to converge into a single, unmistakable aesthetic: the Composit identity.

This collaborative spirit nurtured over the years with talents such as **Piergiorgio Cazzaniga, Enrico Cesana, Leone+Mazzari, Roberto Lazzeroni, and Bizzarri Design** continually enriches our collections with unique perspectives while preserving the strong aesthetic fil rouge embedded in our DNA.

Patents Our dedication to originality is further reflected in the international patents registered for several of our handles and doors, tangible proof of our commitment to developing exclusive materials, distinctive solutions, and designs that stand apart in the industry.

OUR CORE STRENGTHS

2 / CUSTOMIZED SOLUTIONS, EXTREME FLEXIBILITY

At **Composit**, design flexibility is not an added value it is the very foundation of our identity. Positioned halfway between a traditional carpentry workshop and an industrial manufacturer, we create kitchens that are truly tailor-made, shaped around the specific needs of private homes and multi-residential projects.

Every new model we introduce is conceived to be fully customizable: from dimensional adjustments of cabinets and doors to bespoke finishes such as sample-matched wood tones and lacquers.

A vast palette of materials and finishes extending even beyond our catalogue allows us to transform any aesthetic vision into a one-of-a-kind solution.

OUR CORE STRENGTHS 3 / TOTAL HOME DESIGN

Guided by the longstanding expertise of **Belligotti**, **Composit** has evolved into a brand capable of furnishing the entire home with a cohesive, contemporary vision.

Under the philosophy One Brand, Complete Home, we offer a comprehensive range of products from our Kitchens Collection and Wardrobes Collection to Day Systems, bathroom solutions, and boiserie each engineered with high customization and advanced technologies.

Whether for private residences or multi-residential developments, our transversal approach ensures that every environment benefits from the same design coherence, material sophistication, and system flexibility, allowing us to translate diverse lifestyles and architectural needs into unique, fully integrated interior solutions.

OUR CORE STRENGTHS **4 / QUALITY DRIVEN**

At **Composit**, quality is never a variable: it is a constant that shapes every decision we make. When selecting materials or components, we always choose the highest grade available, driven by an uncompromising passion for excellence.

This philosophy translates into concrete choices that elevate durability, functionality, and aesthetic precision across all our products.

We rely on premium hardware such as **Blum's** burnished Blumotion soft-closing hinges and the Legrabox drawer system available in three refined finishes. Internal structures are offered in six water-repellent options, ensuring long-lasting performance, while our cabinets feature 8 mm back panels far superior to the common 3 mm standard and our cabinets feature double aluminum stretchers to ensure exceptional structural rigidity.

COMPANY PROFILE

KITCHENS COLLECTION

KITCHENS COLLECTION

The vocation is to create kitchens characterized by a unique design. Within the range there are two stylistic lines:

MODERN, offers design systems and performance based on innovation and research, with a Modern look.

TIMELESS, identifies a series of aesthetic values and performance, designed for a clientele for which luxury is a lifestyle.

KITCHENS COLLECTION
MODERN

CODE

design **Enrico Cesana**

The enveloping atmosphere is given by the perimeter of the boiserie, the fulcrum of the concept of this project which arises from the idea of combining the kitchen and the living area.

Code can be considered the final phase of the total look project by Composit, so all the rooms of the house can have a unity of style thanks to containers and boiserie in the same range of materials and finishes.

KITCHENS COLLECTION
MODERN
CODE

KITCHENS COLLECTION
MODERN

TOUCH

design **Piergiorgio Cazzaniga**

Minimal design and style with
an invisible integrated handle;
Authentic “cooking machine”
can be placed in a contemporary
environment or stylish context.

KITCHENS COLLECTION
MODERN
TOUCH

KITCHENS COLLECTION
MODERN

LINEA

design **Delta Studio**

A kitchen with essential design,
minimal aesthetics with no handles
and groove channel opening.

Smooth surfaces are interrupted
by vertical and horizontal cuts,
proposed in the wide range of
Composit's finishes.

KITCHENS COLLECTION
MODERN

LOUNGE

design **Enrico Cesana**

From the aesthetic point of view, Lounge features a vertical handle, a strong graphic sign that characterizes the kitchen.

Lounge combines and connects with the rest of the house creating a continuous environment between kitchen and living room, ideal for urban spaces.

LOUNGE

KITCHENS COLLECTION
MODERN

PEPPER

design **Bizzarri Design Associati**

Pepper was born from the contemporary interpretation of “industrial” kitchen.

Original in design, finishes and accessories; it is equipped with a series of friendly and evolved containment and support opportunities.

Everything is designed so that gestures in the kitchen are easy and natural, ergonomics is the added value of this project.

The absolute protagonist of the kitchen is the 22 mm thick wooden door which has a three-dimensional effect.

MODERN

PELLE

KITCHENS COLLECTION
TIMELESS

BLEND

design **Bizzarri Design Associati**

A project that favors simplicity and whose formal cleanliness does not exclude a visual impact of great scenographic effect: the design created by the thin aluminium frame of the doors that creates a graphic and modular element on the facade, the absence of handles, the new design elements.

KITCHENS COLLECTION
TIMELESS
BLEND

KITCHENS COLLECTION
TIMELESS

CÉLINE

design **Delta Studio**

In the eternal return of fashions, today, the framed door is experiencing a new era from which contemporary contexts take benefit.

Céline is an elegant kitchen collection that updates the past and whose door becomes the common thread for the whole environment.

Céline proposes a framed door with a 45° bevel to mark the space of the facades, while the door with a straight frame takes the name of Céline Art.

For both types, the rigorous surface of the doors is enriched by the volume of an important handle, creating a highly personalized kitchen.

MARILYN

design **Delta Studio**

Kitchen project of Composit that elegantly dresses the kitchen environment, visiting card of the whole house.

It is a kitchen with a lacquered framed door, ideal for environments with an international style and a cosmopolitan taste.

It is our interpretation for a chic living, for a contemporary design house with refined details. Rich in design content, the refined finishes make the interior precious and glamorous.

COMPANY PROFILE

WARDROBES COLLECTION

WARDROBES COLLECTION

design +Design Studio

DESIGN FREEDOM WITHOUT ADDITIONAL COST

Custom-made wardrobes at the same price as standard solutions, to take advantage of each space with maximum design freedom.

AN INFINITE CHOICE OF FINISHES

Finishes, colors and materials coordinated with the Kitchens Collection to create harmonious environments between Kitchen, Living Area and Bedroom Area.

CONSTRUCTION QUALITY THAT LASTS OVER TIME

Blum hardware, full-extension drawers and premium structures (25mm sides, 35mm shelves, 8mm back panels) ensure reliability and comfort in everyday use.

WARDROBES COLLECTION

design + **Design Studio**

The wardrobe areas are expanding, widening their solutions to integrate more and more with the style and functions of the sleeping area until they become 'open air' environments.

What makes the difference is the design but above all the 'personalized service' to create exclusive spaces to the point of looking like domestic settings with a high aesthetic value.
