Rivestimento minerale in polvere per interni, miscelato con componenti naturali
Mineral powder coating for interiors, mixed with natural components

novacolor.it

IT. Rivestimento minerale in polvere per interni, miscelato con componenti naturali.

Miscelare Materia Viva Base con il componente naturale desiderato e applicare con spatola inox, in funzione dell'effetto desiderato. Per esaltare le componenti naturali si consiglia di levigare la superficie una volta asciutta.

Resa: variabile in base al componente naturale scelto.
Per maggiori informazioni consultare la scheda tecnica.

EN. Powder mineral coating for interiors, mixed with natural components.

Mix Materia Viva Base with the desired natural component and apply with a stainless steel trowel, depending on the desired effect. To enhance the natural components, it is recommended to sand the surface once dry.

Yield: variable depending on the natural component selected.
For more information please check the technical data sheet.

FR. Revêtement minéral en poudre pour intérieurs, mélangé à des composants naturels.

Mélanger Materia Viva Base avec le composant naturel souhaité et appliquer à l'aide d'une spatule en acier inoxydable, selon l'effet recherché. Pour mettre en valeur les composants naturels, il est conseillé de poncer la surface une fois sèche.

Rendement: variable selon le composant naturel choisi.
Pour plus d'informations contrôler la fiche technique.

DE. Mineralischer Pulverbeschichtungsstoff für Innenräume, gemischt mit natürlichen Komponenten.

Materia Viva Base mit der gewünschten natürlichen Komponente mischen und je nach gewünschtem Effekt mit einer Edelstahlkelle auftragen. Um die natürlichen Komponenten hervorzuheben, wird empfohlen, die Oberfläche nach dem Trocknen zu schleifen.

Ergiebigkeit: variabel je nach gewählter natürlicher Komponente.
Für weitere Info bitte siehe technisches Merkblatt.
