**antoniolupi**

## bath\_026

Le collezioni **antoniolupi** disegnano un paesaggio domestico e consapevole: un invito a vivere la ricerca dell'armonia attraverso forme essenziali e gesti misurati. Ogni progetto è costruito con la precisione del sarto, dove il dettaglio non è ornamento ma misura, e la materia diventa protagonista assoluta — naturale, rigorosa, perfettamente calibrata.

Le collezioni **antoniolupi** instaurano un dialogo profondo con lo spazio e con chi lo abita. Complementi che non inseguono il superfluo, ma raccontano una bellezza silenziosa e duratura, in cui funzione, estetica e materia si fondono in una sintesi armonica, invitando a un'esperienza quotidiana fatta di equilibrio, sensibilità e qualità senza tempo. Oggetti capaci di dialogare con lo spazio e con il tempo, esprimendo un'estetica silenziosa ma profonda, in cui bellezza, funzione e materia trovano una sintesi autentica.

*The **antoniolupi** collections design a conscious domestic landscape: an invitation to experience the pursuit of harmony through essential forms and measured gestures. Each project is crafted with the precision of a tailor, where detail is not mere ornament but a measure, and material becomes the absolute protagonist — natural, rigorous, and perfectly calibrated.*

*The **antoniolupi** collections establish a profound dialogue with space and its inhabitants. Elements that do not chase the superfluous, but reveal a silent and enduring beauty, in which function, aesthetics, and material merge into a harmonious synthesis, inviting a daily experience defined by balance, sensitivity, and timeless quality. Objects capable of engaging with space and time, expressing a silent yet profound aesthetic in which beauty, function, and material achieve authentic unity.*

#### **Finiture PVD / PVD finishes**

Le finiture PVD (Physical Vapor Deposition) conferiscono alla rubinetteria antoniolupi un'estetica sofisticata e una resistenza superiore nel tempo. Il processo di deposizione in vuoto genera un rivestimento altamente aderente che protegge efficacemente dall'abrasione, dai graffi e dall'usura quotidiana, mantenendo brillantezza e tonalità costanti anche dopo un uso prolungato. Le superfici PVD offrono benefici concreti oltre al valore estetico: risultano più lisce e meno soggette a impronte, facilitando la pulizia e riducendo la necessità di detergenti aggressivi. Questo si traduce in un vantaggio operativo per utenti privati, team di manutenzione e contesti contract dove semplicità di manutenzione e aspetto costante sono requisiti fondamentali. È la soluzione ideale per progetti residenziali, commerciali e contract che richiedono qualità estetica, durabilità e facilità di manutenzione. Scegliere rubinetteria antoniolupi con finitura PVD significa investire in design, funzionalità e sostenibilità. La disponibilità di 4 finiture lucide e 4 finiture spazzolate assicura versatilità stilistica e coerenza con ogni applicazione.

*PVD (Physical Vapor Deposition) finishes give antoniolupi taps a sophisticated look and superior durability over time. The vacuum deposition process creates a highly adhesive coating that effectively protects against abrasion, scratches, and everyday wear and tear, maintaining consistent shine and color even after prolonged use. PVD surfaces offer concrete benefits in addition to their aesthetic value: they are smoother and less prone to fingerprints, making them easier to clean and reducing the need for aggressive detergents. This translates into an advantage for private users, maintenance teams, and contexts where ease of maintenance and consistent appearance are fundamental requirements. It is the ideal solution for residential, commercial, and contract projects that require aesthetic quality, durability, and ease of maintenance. Choosing antoniolupi taps with a PVD finish means investing in design, functionality, and sustainability. The availability of 4 glossy finishes and 4 brushed finishes ensures stylistic versatility and consistency with every installation.*
